ALLOY WHEELS

ACCESSORIES

CHANGE THE CHARACTER

Not only do alloy wheels influence the overall perception of the exterior, but they can also change the character of the car. Their design can bring more dynamism, underscore elegance, make the vehicle more sporty or give an impressive-looking family vehicle an added level of comfort. Because it's not just about style. It's also about ensuring your safety. Alloy wheels from ŠKODA Accessories combine unique design with optimum functionality and safety.

Before any set of wheels go onto a ŠKODA model, they must meet the strictest of quality requirements. They must go through an extensive battery of tests - the same as for series production products. Inside you'll find a wide range of high-quality options with a guaranteed long life and a great opportunity to personalise your ride.

BUSSINESS CLASS WITH TOUCH OF PERFECTION

ALLOY WHEELS RANGE

The same way shoes tell important things about you, rims tell about your car. Whether your goal is to accentuate ŠKODA's elegant or sports attributes, genuine wheels are a perfect match.

The product consists of a lightweight alloy wheel (including a wheel-centre cap with the ŠKODA logo).

 May be used with snow chains
